“The participation to the ICE programme has been a really good opportunity for us to improve the quality process in the laboratory and to get reference materials so it's really important for us to continue this collaboration with UNODC.

We joined the UNODC ICE program in 2015 and want to wish UNODC ICE a “Happy 25 anniversary.”

“Desde el Laboratorio de Toxicología y Química Legal del Poder Judicial de la Provincia de Buenos Aires, Argentina queremos hacerles llegar nuestros cordiales saludos por el 25º aniversario de ICE UNODC y un sincero agradecimiento por todo lo que nos han brindado, desde el año 2010 en el que iniciamos nuestra participación en los ejercicios de colaboración.

Sin duda, la participación en los ejercicios y los materiales referencia que nos han enviado, nos ha permitido una mejora en el aseguramiento de la calidad de nuestro laboratorio, logrando altos estándares de calidad.

Esperamos poder continuar en el futuro con la mejora continua del aseguramiento de la calidad de nuestro laboratorio y con el apoyo de su prestigioso programa.

Nuestros mejores deseos desde Argentina, para todos los integrantes del ICE UNODC.”

“Los integrantes de la División Cromatografía Gaseosa de la Policía de la Provincia de Buenos Aires, Argentina, participantes del programa ICE a partir del año 2019 en el análisis de drogas de secuestro queremos hacerles llegar nuestro agradecimiento por permitirnos formar parte del programa, así como también remarcar la importancia de estos ejercicios internacionales en la optimización de la calidad de los análisis de drogas ilícitas en la lucha contra el narcotráfico.

Saludamos y felicitamos a ICE UNODC en este año de celebración por su 25 aniversario, deseándole que en este año 2020 el programa continúe su expansión y más laboratorios se integren para mejorar la calidad de sus métodos de detección y cuantificación de sustancias en pos de unir esfuerzos en el fin que nos convoca. Sin otro particular saludamos cordialmente”.

“Nuestra Institución está muy agradecida con el gran aporte que significa para nosotros participar del Programa ICE.

Nuestro Laboratorio participa en el Programa UNODC ICE desde el año 2015. La participación en estas pruebas interlaboratorios nos han proporcionado la capacidad de implementar mejoras continuas en nuestras tareas analíticas de rutina como también avanzar en el desarrollo de nuevas técnicas. Asimismo, respaldados por este programa, hemos iniciado nuestras tareas encaminadas a la acreditación de normas de calidad que esperamos poder cumplimentar próximamente.

Es muy importante también destacar el gran aporte que significa para nosotros la provisión de patrones de referencia ya que, en nuestro país, muchas veces es complicado acceder a comprar materiales de referencia de estupefacientes.

Desde el Laboratorio de la Sección Narcotráfico de Córdoba Argentina, les enviamos nuestro profundo agradecimiento y muy feliz aniversario deseando que el Programa UNODC ICE continúe por muchos años mas.”

"Participation in these tests allowed the laboratory to obtain a number of reference materials every two years. Thanks to participating in the ICE program, we have been able to check the quality of work in a chemical laboratory and improve laboratory testing.

Inclusion in this program has also enabled access to the UNODC online portal, which offers a large number of method manuals, various publications and information related to the field of narcotic drugs and psychotropic substances, as well as new types of psychoactive substances (NPS), which we use in our laboratory.

In 2019 we have received a certificate for successful participation in the ICE program in the period 2016/2-2018/1, for which we thank the UNODC ICE program, which is an additional motive for us to continue our cooperation.

Congratulations on your 25 years of successful work and wish you continued to provide support for national laboratories worldwide!

GREETINGS FROM THE CHEMICAL LABORATORY, REPUBLIC OF SRPSKA - BOSNIA AND HERZEGOVINA!!!"

"We have been participating in UNODC ICE programme since 2017. Within this programme, we received reference material which has helped to give quantitative results for a few drug contrabands with certainty.

Thanks to ICE programme, we are able to generate even better quality results, resulting in speedy trials in various courts of law. We wish the programme a huge success in enabling the laboratories across the globe to give good quality reports and keep updated about the latest trends in drugs of abuse.

Congratulations to UNODC for celebrating 25 years of supporting national drug testing and toxicology laboratories worldwide to improve and ensure effective quality management in forensic science services. We applaud the work and effort of UNODC in prevention of crime and helping the criminal justice system globally.

Thank you for the fervent efforts, support and creativity of the UNODC staff. We are pleased to offer our congratulations and best wishes in this anniversary celebrations. The Forensic Science Laboratory, Delhi wishes UNODC ICE success and success. You are truly a valued associate."
